### REPORT OF SUPERINTENDENT OF SCHOOLS

---

#### Safety Education:

The topic of education for safety, including prevention of highway accidents, fire prevention, and the practice of care in avoiding accidents at home and on the playground, has been a subject of special study at our teachers' meetings this year. In this field of teaching, the test of success seems to be a negative one if the lessons have been mastered, no accidents happen, and if our pupils look back in future years and see that the habits of care and watchfulness now being formed have helped to keep them out of danger, we can then feel that our educational program has been successful.

#### Education For Defense:

A wave of patriotic fervor is sweeping across our broad land. This spirit has encouraged some to enlist as soldiers, and others to go to school at night to develop their skill at various mechanical trades. The duty of our elementary schools, at this time, is to give boys and girls a better understanding of our democratic institutions, and to instil in their hearts a greater loyalty to our flag and the republic for which it stands. We must realize, young and old, that the greatest service to our country may not demand that we bear arms in her defense, but must require of each of us that measure of tolerance, of thoughtfulness of others, of self-sacrifice for the common good, and of intrinsic honesty that will make impossible the evils of greed and self-seeking that are the real dangers to our democracy.

#### What Our Schools Are Doing:

The Grammar Room of the Center Harbor Village School has particularly stressed reading this year. Remedial work has been done and great improvement has

## TOWN OF CENTER HARBOR

---

been made. New arithmetic wall charts are in use, encouraging pupils to keep their scores high. The "Health Club" has taught cleanliness and ways to develop healthy young people that will be able to take their places in the community and become more useful citizens. The history projects were well done and showed skill. Reginald Kelley received the highest mark for his colonial village made entirely of burned matches. The orchestra has been progressing. Violin and horn lessons have encouraged many to study hard so that they might join this organization. Some, too, have tried writing poems, several of which show ability and were displayed on the bulletin board.

The children of the Primary Room of the Center Harbor Village School have taken much interest in studying their United States since they have been exchanging letters with children from other states. Letter writing, English, and spelling have much more meaning and value as the children can see the necessity for it. They delight in comparing their handwriting with those of their out-of-state friends. When a new letter is received, the stamped post mark is cut from the envelope. It is then placed on a large outline map of the United States on the state from which it came. Products made in our own state are exchanged with products from other states. In this way the children have become better acquainted with their own state and its work. Along with this project has come a study of United States Mail service, including parcel post, money orders, air mail, stamps, and the franking privilege. When two families moved away to other towns, the exchange of letters was immediately suggested. In this way the pupils have kept in touch with their former school mates.

West Center Harbor reports its usual work. In the annual test given at end of year we had four "top-notchers," that is, pupils whose score in one or more subjects was highest in the six towns comprising this supervisory union. Some of the projects at the beginning of this school year were, (1) Coal and its products; (2) Our town's story, with maps of roads and homes.

## TOWN OF CENTER HARBOR

---

The Town House School successfully carried out a hot lunch program during the winter of 1939-1940 without expense to the school district. The school earned money that was used for lunch equipment and trips to educational movies and programs. This would not have been possible except with the cooperation of Mr. Lester Swinnerton who used his bus to transport them. This year the pupils have tried to improve playground attitudes, be more polite and have better observance of safety rules. Special equipment purchased by the school is a victrola attachment for the radio. Each year the girls and boys try to contribute something beneficial to the school. A special gift box for Junior Red Cross in war-torn countries, was filled. Most of the gifts were made by the pupils. Special attention has been given to the improvement of reading and speaking before the class because this is so often difficult to do successfully.

### **Conclusion:**

In conclusion I wish to thank you, the members of the School Board, and our fellow citizens for the broad-minded interest and patience extended to the schools in our dealing with our very human problems. Our objective is to help children develop a responsible and sane attitude toward the problems of life in and out of school. In this matter the home has the greatest responsibility, and the general home cooperation with our work is in a large measure responsible for the success of the year.

Respectfully submitted,  
ALMON W. BUSHNELL, Superintendent

### REPORT OF SCHOOL NURSE

---

This report is a summary of the work done by the school nurse from January 1, 1940 to January 1, 1941.

Pupils inspected	94
Visits to schools	44
Visits to homes	60
Business calls	30

Dr. Frank Lovering examined twenty pupils in the Center Harbor Primary and Grammar Schools. These twenty children are from the town of Moultonboro, attending these two schools. Dr. Leonard Morrill, the school physician, examined all the Center Harbor children. All children were measured once, and weighed several times during the year. Five vaccinations were done, late in the fall, by Dr. Morrill. These children had either been unsuccessfully vaccinated previously or not vaccinated at all. All five vaccinations were successful.

An excellent dental clinic was held from April 29th to May 16th, 1940. Dr. F. J. Deneault, of Meredith, did the work at special rates. A summary of the clinic shows that twenty pupils were treated, with a total of 100 operations being done. The clinic was financed through private funds, the Center Harbor Red Cross, and the Belknap County Commissioners.

I feel very strongly that some consideration of the school nurse's mileage must be considered very soon by each community that she serves. I serve the towns of Madison, Freedom, Effingham, Sandwich, Moultonboro, Center Harbor, Holderness, and New Hampton, (working in three supervisory unions). Transportation of pupils to all clinics was done by me, with two exceptions, in addition to my work as no volunteers would

## TOWN OF CENTER HARBOR

---

undertake this duty; consequently this mileage was added. My total mileage, for all the communities, for the year, was 9,559.5 miles. The upkeep on any car, plus running expenses and necessary insurance, necessitates that this question be seriously considered by each school board.

The cooperation of the superintendent, members of the school board, teachers and parents of the community has been very much appreciated.

Respectfully submitted,

RUTH E. ALLEN, R. N.
